Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different to all any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building, against the engine, in case of fire or any other exigency. You can have it with or without the force part. Any person, with a jack knife, can fit all leaks in the pump that will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

E. H. SMITH.

ROBERT L. PATTERSON, President.
JOEL W. CONDIT, Vice President.
BENJ C. MILLER, Secretary.

Such times as the present should cause every business man, with a family dependant upon him, to consider what the condition of those he loves might be should he be suddenly taken away by death. All can now fully notice the uncertainty and instability of fortunes made in business. The millionaire merchant of yesterday is to-day the insolvent debtor. To guard against such reverses let every man insure his life for the benefit of his family, which insurance cannot be disturbed by his creditors. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country—its investments are in first bonds and mortgages on real estate worth more than double the amount loaned One half of the Premium on Life Policies may be paid by note bearing 6 per cent. interest. Dividends are declared annually to those who have paid two life premiums—there are no stockholders to take any of the profits which rightfully belong to those who are insured for life.

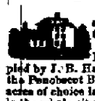

Prospectuses, statements and applications will be furnished (without charge) and all information desired will be given by the undersigned Agent.

N. B. Persons residing in any portion of the country, desirous of insuring their lives, will be supplied with all the necessary papers and with minute instructions to enable them to make applications by addressing the undersigned.

BENJ. PLUMMER, Agent, Bangor.

may6

FOR SALE,

One of the most beautiful situations in this part of the country.

The valuable Real Estate in Brewer formerly owned and occupied by J. B. Hayes, Esq., 2½ of a mile above the Penobscot Bridge, consisting of about twenty acres of choice land, commanding a view of nearly the whole city of Bangor, and comprising, in part, the sites for Factories contemplated under a charter of the Legislature of Maine, on which land is a large and commodious dwelling-house, wood-shed, barn, carriage-house, &c., good well of water, a large number of grafted apple and plum trees, of choice varieties, part of which are in bearing.

Terms.—One half cash, on delivery of deed, the remaining one half in three equal annual payments, with interest, secured by bond or notes, and mortgage on the premises. A perfect title given. For further particulars apply to

☞ REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

33 EXchange Street, Boston.

PATENTS secured in the United States, and in all other patent-granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged in Bankrupt, and has been in that capacity in constant correspondence and intercourse with this Office; he has acquired a thorough acquaintance with the Patent Laws, and with the rules and practice of the office, a close attention to the interests of his clients, and a notified candor and courtesy that has tended to the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have had several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in the office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY R. RENWICK,	Principal Examiners
D. GALE,	
S. H. DAGE,	
F. SOUTHWORTH SMITH,	Assistant Examiners
T. R. PEALE,	
THOS. T. EVERETT,	
WM. C. LANGDON,	

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. M. FITZGERALD,
Late Principal Examiner of Patents.

Safety, Utility and Beauty.

New England Trace Coupling Company.

STATE RIGHTS FOR SALE.

WE are now exhibiting this desirable invention to the public. The Patent Trace Coupling is an article which needs only to be seen to be appreciated, and universally adopted by this Coupling the Trace is attached to the whiffletree *instantaneously, without straining the hands, cannot be disconnected by accident*; a stranger and *inexperienced person can do any other attachment now* in use, and makes what is so desirable in a fine carriage, an *excellent finish*.

The Couplings are manufactured of different materials, from the common finish in the *finest silver plate*, and can be supplied at a *lower cost* than any thing that is now used for that purpose, leaving a margin for an *immense profit*. Any person with a moderate capital can soon realize a fortune in its sale.

We are prepared to furnish the Couplings, of the different grades and costs, in quantities as desired, to those only who purchase State rights.

The Coupling may be seen at the office of the Company, where a scale of prices may be obtained, and all communications must be addressed to "The New England Trace Coupling Company," *Basement No. 3, Old State House, Boston.*

May 28—2m emp.

TEE CRYSTAL OIL LAMP

For Burning the Crystal Oil,

Combining Economy and Safety!

PATENT RIGHTS

FOR STATES & COUNTIES FOR SALE!

This important Invention for producing the *cheapest* light in the world, is now perfected and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *cheapest*, is both safe and agreeable in every position, making a *clear, whesaona brilliant flame*, entirely free from *smoke or odor*. There is no danger from explosion, but is perfectly safe under all circumstances. The oil can be used in any place without fear of soiling the nicest garments. The lamps are *simply* arranged and perfectly controllable by the children and domestics, and so constructed that the light can be raised in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents.

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this lamp for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making this request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co.," No. 5, Merchants Row, will be promptly attended to.

Crystal Oil Lmap Company, No. 5, Merchants Row, Boston.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the public as

THE GREAT REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints

The discovery of an eminent French Physician after many years of study and observation, it contains the most wonderful and

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the frequent daily visits of some of our most eminent physicians, and the analysis of Dr A. A. Hayes, the State Assayer, all serve convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more general reputation. From its volatile nature, it admirably suppods itself, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations of the kind presented to the public by reason of the lack of success with which worthless and impotent compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, unless the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but that unless that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles,

Bronchitis by using One to Three Bottles,

Coughs by using less than One Bottle

Colds, by using it Two to Six Days;

Bleeding of the Lungs by using less than One Bottle,

Hoarseness by using less than One Bottle,

Soreness of the Chest by using less than One Bottle,

Price $3 per bottle, accompanied by a Treatise. For sale by

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, remodelled, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the corner of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful Hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.

Republican Nominations.

FOR GOVERNOR,
LOT M. MORRILL.

For Representative to Congress.
Sixth District—STEPHEN C. FOSTER

REPUBLICAN CONGRESSIONAL CONVENTIONS.

FIFTH DISTRICT.

The Republicans of the Fifth Congressional District are requested to meet, by their delegates at Exeter Corner, on THURSDAY, the 19th day of August, inst., at 10 o'clock A. M., for the purpose of nominating a candidate for Representative to Congress.

Every town and plantation is entitled to one delegate, every town that gave fifty votes, or more, to the Republican candidate for Governor in 1857 two delegates, for every additional fifty votes, another delegate, and for every fraction of twenty five votes, or upwards, after the last fifty, shall be allowed one delegate.

Bangor, August 2, 1858.

Every candid man, we think, will admit that this is all fair and above board. If a majority of those voting shall pronounce in favor of the adoption of Lecompton, then Kansas comes into the Union as a State. If the majority rejects Lecompton it is tantamount to a solemn declaration that the people of Kansas wish to retain the Territorial form of government until her population is large enough to send a representative to Congress.

The above, which we take from one of the bunker organs, is a specimen of the "fairness" and candor with which the free State men have all along been treated by the democratic party. The English swindle is declared to be "all fair and above board." If a majority of the people had been in favor of *slavery*, then Kansas could have been admitted. But they are not in favor of it—and having so declared by an immense majority, they are now insolently told that this rejection of Lecompton is "tantamount to a solemn declaration *that they wish to retain the territorial form of government*" until their population is large enough to send "a representative to Congress." Was there ever a more outrageous assumption than this? Because Kansas refuses to be admitted as a *slave* State, she is therefore to be considered as desiring to remain a Territory! And with this pretence, supremely ridiculous as it is, we have reason to believe that Kansas is to be met in the halls of Congress when she demands admission as a *free* State. The vote of the people rejecting Lecompton is to be made the excuse for rejecting free Kansas. The party leaders at Washington are a ready instructing their subsidized organs as to what will be considered "democracy" in this case. Kansas having indignantly spurned Buchanan's pro-slavery constitution, that act is construed by modern democracy as a "popular sovereignty" decision against coming into the Union at all! Kansas doesn't wish to come in as a slave State. Ergo (says sham democracy) she don't want to come in as a *free* State. Therefore it is "democracy" to refuse her admission. This is the kind of popular sovereignty for Kansas which prevails at Washington. It is truly a fitting climax to the original wrong perpetrated by the Kansas-Nebraska bill, and the series of outrages with which the democratic party has ever since endeavored to fix that wrong upon the people of the Territory. Will the people of the free North permit the consummation which is now attempted? Kansas has just declared, by an overwhelming vote, not only that she is opposed to slavery, but that *she desires admission as a free State*. No other interpretation can properly be placed upon the vote of the 2d of August. Shall this popular decision be respected and confirmed? Sham "democracy" says "No"! And every democratic Congressman elected will be required to vote "No," by his Southern masters. LET THE PEOPLE OF MAINE COME TO THE POLLS THEN, IN FULL RANKS, on the second Monday of September, and see to it that no candidate of this sham democracy is elected from our State. A desperate effort will be made to break into the delegation,—and THERE MUST BE A FULL VOTE TO PREVENT IT.

NOT UNPROFITABLE. It is said that the Sergeant-at-Arms, at Washington, has had allowances for constructive mileage made him during the last session amounting to $25,000. He is allowed ten cents a mile for traveling expenses while subpœnaing witnesses. As interpreted at Washington, he may sit in his office in that city and charge the travelling expenses to every copy of subpœna he serves out.

It is vain to stick your finger in the water, and, pulling it out, look for a hole.

ENGLISH NOMINATION. We have received some ridiculous particulars of the growing out of the re-nomination of English in the Second Congressional District of Indiana. It appears that he was much aided by a letter from Buchanan, real or pretended, which he freely showed around to certify the will of that high functionary that English should be the nominee. This, together with unscrupulous "packing" of the convention, carried the day. Mr. Sherrod, one of the competitors for the nomination, in withdrawing his name at the start, made the following rather plain remarks:

"I am under the necessity of withdrawing my name as a candidate for the nomination, as I have discovered that this convention is packed—that men have been drummed up from every quarter for the purpose of defeating me—and that my friends have been *hired* to stay at home."

THE ATLANTIC TELEGRAPH. The *Boston Traveller* has an interesting article in relation to the cable, from which we state the following facts. The cable is composed of seven fine copper wires, twisted into a cord 1-16 of an inch thick. The strand was coated with gutta percha, forming a small rope ⅜ of an inch thick; then coated with hempen twine twice soaked in pitch and tar; lastly an external sheathing of 18 iron wires, each wire being a strand of seven finer wires, making in all 126 wires.—The weight of the cable is about one ton per mile, and it is capable of bearing a direct strain of over five tons without fracture.

The cost of the cable between Ireland and Newfoundland, is given as follows by the Traveller:

Price deep sea wire per mile	$290
Price spun yarn and iron wire per mile	265
Price gutta percha per mile	20
Total per mile	$485
Price 2500 miles	$1,212,500
Price 10 miles, deep sea cable at $1450 per mile	14,500
For 25 miles shore end, at $1450 per mile	31,250
Total cost	$1,258,250

The U. S. steam frigate Niagara, which has been employed in the work, is one of the largest, probably the very largest ship of war in the world. She is 345 feet long, 55 feet breadth of beam, 31 feet 3 inches depth of hold, and measures 5,300 tons.

The British steam frigate Agamemnon, associated with the Niagara, is only 3,200 tons. She is 230 feet between perpendiculars, 55 1-2 feet breadth of beam, and 24 1-2 feet depth of hold.

[The following article as published yesterday was in an incomplete form.]

Almoner to the Poor, and City Missionary.

Since the departure from among us of Rev. Mr. Wells, no one has attended to the duties indicated by the caption to this notice, and now that the season is fast approaching when such an officer is wanted to distribute systematically the charities so freely bestowed by our citizens, is it not time, before our poor are otherwise engaged, to set ourselves about the matter, and make such a selection as will give efficiency and character to this important office?

The experience of the past is the best evidence that the money we give is better expended through this channel than by individual means, and this important class, the poor whom we always have with us, is better taken care of by this than by any other method, for while it prevents much street begging, it relieves a large amount of secret, quiet poverty, known only to the recipient, the almoner, and "Him who feedeth the raven, and knoweth our every want."

Besides this distribution of material aid, so necessary and important to the reception of spiritual truth, a still further and important duty belongs to the office, viz: that of imparting to those in need that spiritual consolation so consoling and comforting in hours of sickness, distress and bereavement,—reaching that portion of our fellow citizens who do not come within the pale of any of our church organizations. A very large number this includes; more, perhaps, than we are aware of,—and these duties, combined with those at our Alms House, House of Correction and Jail, with the distribution of the charities, demand the full time and service of a discreet, judicious man, who, with love in his heart, and money in his hand, can do much, very much good.

Will not some of our good people take this matter in hand, and call a meeting of those interested, that we may harmoniously act together?

H.

TELEGRAPHIC MESSAGES FOR LONDON.—Two business messages from New York merchants to their correspondents in England, passed through the American Telegraph office, Boston, from New York, en route for London, on Thursday. One of them containing fifty-seven words, paid through, fifty-seven dollars, and the other, twenty-seven words, for which twenty-seven dollars was paid.

GREAT SWIMMING MATCH.—The Madison (Wisconsin) State Journal says that in a swimming match which came off at that place on Saturday last, P. Dilz swam for 46 minutes, E. Diederick, 1 hour and 12 minutes; C. Rees, 2 hours and 9 minutes; R. Lwsey, 4 hours and 24 minutes; and F. Hatching, L. Holt and N. Frederickson, 5 hours and 37 minutes each. The prize was a silver cup.

IMPORTANT TO LANDLORDS.—We see by a notice in the Erie Advertiser, that Mr. Walter Johnson, of that city, has invented a bull-dog which being wound up by an ingenious mechanism, will howl all night.

While the keeper of the jail at Brandenburg, Ky., and most of the citizens of that place were attending a barbecue at Garnettsville, on the 29th ult., Horton and John Bell crossed the Ohio river from Indiana; assaulted the jailor's wife and a young man, who were in charge of the premises, and obtaining possession of the keys of the jail, liberated their father, David Bell and their brother Charles, who had been detected in aiding the escape of slaves and forcibly taken across the river and imprisoned, after which the whole party made good their escape into Indiana.

LOCAL AND MAINE NEWS.

The following resolutions were passed on Sunday last by the Sabbath School connected with the Union Street Methodist Episcopal Church.

Whereas, John E. Hovt, a member of the Sunday School of the Union Street M. E. Church, was suddenly called from time to eternity by accidental drowning; and,

Whereas, we, the members of the school, realizing the loss we have sustained, and the painful bereavement of the parents, brothers and sisters, and being anxious to express our condolence to and for them in this their hour of affliction; therefore

Resolved, That we hereby express our deep sympathy for the much afflicted parents and family, and our fervent desire that the blessing of our Heavenly Father may be with them in this trying hour.

Resolved, That, as a testimonial of our esteem for the departed a copy of this preamble and these resolutions be printed and sent to the parents of the deceased.

S. L. FIFIELD, Superintendent.
Bangor, Aug. 8. 1858.

A NEW PANORAMA BY MONS. ANDRIEU.—The Belfast Journal recently announced the completion of a new and splendid work by Monsieur Andrieu, the talented artist who has painted some of the most successful panoramas that have ever been exhibited. The new work announced as above, and upon which M. Andrieu has diligently employed his genius for six or eight months, is an original conception of great power and beauty—comprising a series of distinct pictures designed to illustrate the great moral truth that the way of the transgressor is hard. The work is entitled "The Rake's Progress," and it embodies an idea which the artist has for years been elaborating in his mind. We had the pleasure of visiting his studio while the painting was in progress, and at once perceived that it was to be a work of no ordinary merit. Some of the scenes are of a thrilling description, and they are all executed with a master's hand. We believe the painting is to be exhibited in this city soon.

MONTREAL HOUSE. OLD ORCHARD BEACH. To such as may visit this pleasant watering place we would recommend the Montreal House, kept by Mr L. Roberts. The house is new and comfortably furnished—the fare good and plentiful—and the charges moderate. No effort is spared by either the landlord or landlady to render the house a home to their guests. In their establishment no charge is made for *style*. Old Orchard Beach is one of the best places for sea bathing on the New England coast, and is easily accessible. It is situated three miles from the village of Saco, with which it is connected by coaches running twice a day to and from the Portland, Portsmouth and Saco Railroad trains.

WHOSE WIFE SHALL SHE BE?—About nine years ago, a man in a town not many miles distant, left his wife and three children for California. He wrote letters home for two or three years, after which no intelligence was received from him, although rumors of his decease came back. His wife, after the lapse of some five or six years from the time of her last intelligence from him, married a respectable returned Californian. What was her surprise, a few days ago, on receiving a letter from her missing husband, accounting for his long silence in this wise:—Soon after writing to her last he sold out his claim in California and went to Australia. While excavating a tunnel, in company with five others, the earth fell in upon them and killed three of the number. He was rescued, but was so injured in the head as to cause derangement of mind, in which condition he remained three years and a half. When he recovered he sailed again for California, where he had but just arrived when he wrote to her. He had heard of her marriage but did not reprove her, or signify his intention of returning to claim her.

THE CONCERT TO-NIGHT. The last concert of the series will come off to-night, when we anticipate a large audience, as the programme promises a rich treat for all admirers of the fine art of music. Messrs. Hause and Jungnickel are deserving and most accomplished artists, entitled to an unmistakable acknowledgement of their ability and gentlemanly liberality towards all with whom they have had to deal.

We understand that arrangements are under way to give them a benefit at Johnson's Hall, Main street, which Mr. Tracy has kindly put at their disposal for the purpose of gratifying the musical part of our citizens with pure classical music, which will be quite a treat for some of our young lady amateurs. We wish them a good house, and hope they will visit us again, to enliven in our midst a true taste for good music.

M.

HOUSE AT AUCTION.—Our readers will notice by advertisement, that an auction sale of a desirable estate on Madison Street, will be made to-day, at 10 o'clock, on the premises, by J. B. Foster, auctioneer.

A very dangerous affair for a *safe* one occurred on the street yesterday. As workmen were lowering a heavy iron safe down the stairs in the Ellicot House Block, having planks laid for ways, and tackle and fall made fast by a bar across the back window, the bar broke just as the strain came upon the rigging, and the safe made an unceremonious plunge forward the street, breaking the brick and flagging sidewalk, and carrying away the legs of the safe. It brought up near the middle of the street. When we passed a few minutes previous a safe was being taken up the stairs, with the purchase, while a crowd of persons were in front of the door-way and people were passing on the sidewalk. Fortunately no one was injured; but it would be a perilous experiment to repeat often.—*Bath Organ.*

EASTPORT BRASS BAND.—This meritorious company, we are happy to announce, has obtained through the generosity of our citizens, a splendid set of German silver instruments, manufactured by Graves & Co., Boston. The two some belonging to the set were made by J. G. Nickerson of the same city, and cost $26 and 25. There are sixteen instruments with mouth pieces; and these, with the drums, cost, with the freight included, $1100.

And through the generosity of our citizens, with the energy and perseverance of Messrs. John O. Hoskins and David S. Joy, that the Band has been able to obtain this splendid and costly fit out. Its remarkable proficiency under the tuition of E. Howe's tuition, during the nine months of its existence, justifies the expectation of its complete success.—*Eastport Amer.*

DEATH OF AN AMERICAN ENGINEER IN HAVANA. A letter from Havana announces the death, on the 12th ult., of Mr John Foster, a native of Maine. Mr Foster went to Cuba in 1843, and has spent the winter there since that time, with one or two exceptions. He was an excellent mechanic, and a true man in every respect. A countryman being taken down with yellow fever, Mr Foster nursed him for six weeks, and when convalescent placed him on board a vessel for Boston. Mr Foster was soon taken by the yellow fever, and died in four days.

Ship Columbus, of Richmond Me., from New Orleans for Liverpool, put into New York 6th instant, for orders, the master, Joel Hupper, of Thomaston, Me., and a boy, having died, and four seamen being sick.

A SERIOUS JOKE. Some thoughtless person wrote a letter to a young man in Portland on Saturday, that Miss Larrabee and Miss Merrill of that city, who were visiting at Bath, had been drowned on Saturday morning by the upsetting of a boat in the river at that place.—Their friends were in great trouble, of course, until the telegraph assured them it was all a joke!

INSURANCE ON A BATH SHIP. Ship Osceola, of Bath, before reported burnt at Key West, was owned by Page, Richardson & Co. of Boston, Merritt & Robinson, and Capt. John P. Smith, of Bath. She was insured for $48,000, of which amount $7500 was in the Mutual Marine Office in Bath, and the balance in Boston. On the freight there was an insurance in offices in Bath, of $6500.

EX-FIREMEN'S EXCURSION. The Ex-Firemen of Portland, with Chandler's Band, visited East Boston to-day, as the guests of the "Webster Associates," Ex-13 of that place.

THE CELEBRATED PEAKE FAMILY OF VOCALISTS AND BELL RINGERS will give one of their attractive entertainments at Norombega, on *Thursday Evening* next. This delightful troupe always draws a full house.

LIGHTNING. During the violent thunder shower of Friday afternoon, the lightning struck the Light House on Kennebunk Pier, shattering the glass, and doing other trifling damages; the keeper had left a few moments previous. The flagstaff and vane upon the head of the pier were also struck, and shivered into three thousand pieces.

New Publications.

WAVERLEY NOVELS. HOUSEHOLD EDITION.—Boston, Ticknor & Fields. 1858.

The August issue of this beautiful edition of Scott's Novels comprises "Redgauntlet," in two volumes—presented in the same exquisite style of typography and illustration which has characterized the whole series. There is no falling off in this respect—the high reputation of the edition being fully maintained, although the series is now nearly completed. Redgauntlet is one of the most powerful romances of the "Great Wizard."

The Bangor Agents for the Household Edition are Messrs. Bugbee & Co.

CONTRACTION AT THE ENGLISH COURT. The following account of the collapse of the skirts in Victoria's court, comes in a Paris letter, and we cannot quite credit it:

"The attempt made by Queen Victoria to resist the invasion of the crinoline is an old story. We use the word *crinoline* as being the one now indiscriminately applied to all *skirt-expanders*, though the material called by that name has been long superseded by steel and whalebone hoops. Her majesty appeared without one at her daughter's wedding. She was probably annoyed that so much of her territory should be covered by French invention. Since that eventful day no hoops nor stiffeners of any kind swell the skirts of the English belles. On a recent visit to London, we were struck with the contrast the female population presented with the Parisiennes; they really seemed like creatures from another sphere; and after all the outcry that has been raised against the *outre* rotundity imparted by the hoops, we must confess to preferring it by far to the scraggy long drawn out forms we saw in England. In Paris the travelling English women, with strait up-and-down, stick-like figures, surmounted by immense flat hats, garnished with lace, resemble open umbrellas—or, as we heard one of their own countrymen say, immense mammoth mushrooms, running about the streets."

THE POLICE OF LONDON. A London correspondent of the New York Express thus describes the police of London:

"The police of London seems to me an admirable arm of authority and power. I am assured I are that when any serious disturbance takes place, the military are comparatively powerless, whereas the police are omnipotent in suppressing riot. Every good citizen is accustomed to stand by the police, and while they are an energetic, vigilant, civil body of men, who respect themselves, every decent man respects them. There are nearly seven thousand in the entire city. Their presence everywhere not only preserves the best of order, but they are of immense advantage in innumerable other ways. They are bold men, perfectly fearless, most of them of long experience and ready any moment to grapple with a rogue or ruffian. I have seen them handle two or three fellows who were disposed to resist their authority in a way which was a caution to peace disturbers. They are about everywhere, especially active in preserving order on the Sabbath, and in walking the streets of London it is difficult to be out of sight or call of a policeman. As they are retained during good behavior and are not subject to politics changed, and do not feel anxious about offending pot-house politicians, or hesitate to refuse to fraternize with drunken rowdies, they are doubly efficient, and are ever prompt in the discharge of duty. Their uniform is neat, and every man appears to average six feet."

SINGULAR RESUSCITATION. Two children, a son and daughter of William Sabin of Springfield went to Onondaga Creek on Monday, where the boy ventured upon a log and fell into the water. His little sister witnessed the accident—saw him rise and disappear again, whereupon she ran home to inform her father of the accident. Mr Sabin got hold of the boy's leg and pulled him out. He had been in the water from 12 to 15 minutes, and appeared lifeless when taken out. He was laid out as dead—there not being the slightest evidence of vitality manifested since being rescued from the water. What is more strange and singular, an hour afterwards the boy was observed to breathe. Every effort was employed by his friends for his recovery, and at 11 o'clock the *last was recovering such them*. He is doing well. This is the most singular case of resuscitation after drowning that we ever recollect hearing of.

The Cleveland Plaindealer says: "Gen. Cass is in a critical state of health. He is suffering from diarrhœa, and has both age and the season against him."

The Horse Taming Secret.

The New York Tribune devotes a page to the elucidation of Rarey's American system of horse taming, with illustrations. The idea upon which the process is based, is to render the horse helpless by some contrivance, and while in that condition to convince him that he is in the power of man. That conviction established in him, which is generally very readily accomplished, and he is subdued permanently, and becomes docile and manageable. Some of the processes by which this is done are described as follows:

1. Retire with the animal to be operated upon into a close stable, with plenty of litter upon the floor (tan-bark or saw-dust is preferable). In the first place fasten up the left fore-leg with the arm strap in such a manner that it will be permanently secured. Then take a broad strap and buckle and pass it round the neck just back of the jaw bone. Draw the strap as tight as possible, so tight as to almost arrest the horse's breathing. The strap must not be buckled, but held in this position to prevent slipping back. The animal will struggle for a few minutes when he will become perfectly quiet, overpowered by a sense of suffocation; the veins in his head will swell; his eyes lose their fire; his knees totter and become weak; a slight vertigo will ensue, and growing gradually exhausted, by backing him round the stable, he will come down on his knees, in which position it is an easy matter to push him on his side, when his throat should be released. Now pat and rub him gently for about twenty minutes, when, in most instances, he will be subdued. It is only in extreme cases necessary to repeat the operation of choking. No horse can effectually resist the terrible effects of being choked. It must be constantly borne in mind that the operator must not be boisterous or violent, and that the greatest possible degree of kindness is absolutely essential. When the horse is prostrate he should be soothed until his eyes show that he has become perfectly tranquil.

2. Buckle or draw a strap tight around the neck, lift a fore leg and fasten around it the opposite end of the strap, the shorter the better. It will be seen that in this plan the horse is made the instrument by which the punishment is inflicted. When he attempts to put his foot down his head goes with it, and he thus chokes himself; care should be taken that he does not pitch on his head, and endanger his neck.

3. Secure the horse with a stout halter to the manger. If extremely unruly, muzzle him. Soothe him with the hands for a few minutes until he becomes somewhat pacified. Then seize him by the throat, close to the jaw bone, with the right hand, and by the mane with the left. Now forcibly compress his windpipe until he becomes so exhausted that, by lightly kicking him on the fore-legs, he will lie down, after which he should be treated as previously described. This process requires courage in the operator and also great muscular strength.

4. In the first place, if the horse be a biter, muzzle him; then lift and bend his left fore leg, and slip a loop over it. The leg which is looped up must be secured by applying the short strap, buckling it around the pastern joint and forearm; next put on the surcingle, and fasten the long strap around the right fore foot, and pass the end through a loop attached to the surcingle; after which fasten on a couple of thick leather knee-pads—these can be put on in the first place if convenient. The pads are necessary, as some horses in their struggles come violently on their knees, abrading them badly. Now take a short hold of the long strap with your right hand; stand on the left side of the horse, grasp the bit in your left hand, while in this position back him gently about the stable until he becomes so exhausted as to exhibit a desire to lie down, which desire should be gratified with as little violence as possible; bear your weight firmly against the shoulder of the horse, and pull steadily on the strap with your right hand; this will force him to raise his foot, which should be immediately pulled from under him. This is the critical moment; cling to the horse, and after a few struggles he will lie down. In bearing against the animal do not desist from pulling and pushing until you have him on his side. Prevent him from attempting to rise by pulling his head toward his shoulder. As soon as he is done struggling caress his face and neck, also, handle every part of his body, and render yourself as familiar as possible. After he has lain quiet for twenty minutes let him rise, and immediately repeat the operation, removing the strap as soon as he is down, and if his head is pulled towards his shoulder it is impossible for him to get up. After throwing him from two to five times the animal will become as submissive and abject as a well-trained dog, and you need not be afraid to indulge in any liberties with him. A young horse is subdued much quicker than an old one, as his habits are not confirmed. An incorrigible horse should have two lessons a day, about the fourth lesson he will be permanently conquered. If the operation is repeated several times, he can be made to lie down by simply lifting up his fore leg and repeating the words "Lie down, sir," which he must be previously made familiar with.

ANECDOTE OF MR. WEBSTER.—One evening last week a number of the citizens of Buffalo called upon the Hon. Samuel A. Ruggles, at his hotel in that city, to congratulate him upon his appointment to the office of Canal Commissioner. Mr Ruggles being called upon to speak, commenced with the following anecdote of Mr. Webster:

"After some preliminary observations, Mr. Ruggles said he never looked upon this magnificent chain of waters without recurring to a singularly compact and characteristic epithet once applied to them by that greatest of American statesmen, Daniel Webster. Upon a certain occasion, Mr. Ruggles had ventured to urge upon Mr. Webster the importance of the Mississippi as an indissoluble bond of National Union, asserting, perhaps with some extravagance, that it was the GREAT FACT of this country! To which the statesman after a slight pause replied: 'Sir, it may be a great fact—but let me tell you the great chain of lakes is a very BROAD HINT!'"

DOES "BION" OWN THE "LITTLE NIGGER" STILL?—The following good story is told by the Boston correspondent of the New York Tribune, and is a very fair illustration of the devotion to the 'peculiar institution' which has been ever consistently manifested by the gentleman who aspires to represent the sixth District in the next Congress.

"It is said that one of the Custom-House officers who went on from here to Washington, to get Mr Howland appointed Collector, thought it prudent, in order to make known his zeal in the service of Slavery, to purchase a "n-gger." So he bought, not a "low-priced baby," as Mr Sawin proposed, but a small boy to wait upon him. It is furthermore hinted that when he left Washington, he sold his "little nigger" to a well known politician of Maine, who was there trying to get or keep an office, and who is now trying to get into Congress from that State."

The interesting query now is—what did Bion do with the "little nigger?" Does he own him still? or after his failure to retain the Eastport Collectorship did he sell him in disgust? It is suggested that Burns bought two "niggers"—one of them a "big one"—and in this way manifested a still larger devotion to the interests of the South than that displayed by Bradbury.—*Portland Advertiser.*

OREGON. We have been permitted to read private letters from Oregon received by a gentleman in this city. The result of the election there, was the election of the Buchanan ticket by from two to three hundred, a gain to the opposition of about eighteen hundred on the last Congressional election. The opposition would have elected their ticket but for the fact that the system of voting viva voce, deters very many through fear of the office holders to vote the administration ticket.—*Kennebec Journal.*

SPECIAL NOTICES.

CARD.

The parents and family connections of FRANKLIN HOLMAN, (who was so suddenly taken away by death on the 30th of July,) anxiously tender their thanks to the officers and members of Eagle Engine Company No. 3, of Bangor, for their sympathy in their affliction, and for so generously paying his funeral expenses and his yearly salary.

Milo, August 7, 1858.

MUSIC:

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

The Queen's and the President's First Message through the Cable.

OFFICE OF ASSOCIATED PRESS,
Boston, August 9.

We understand that the recording instrument for the Atlantic Cable is in such a state of forwardness as to insure the early opening of the line for business. It is undergoing the last transmission of the Queen's and the President's first messages through the cable to take place early in the afternoon, and probably in the course of the present week.—Immediately after the transmission of the President's reply to the Queen's message, she two congratulations will, by consent of the President, and through the co-operation of the managers and employees of the Telegraph Lines of the country, be made public from Newfoundland to Texas, and from Quebec to the boundary of civilization in the northwest.

We have assurances from all points that as soon as the Queen's and President's messages are received, there will be public and private demonstrations of joy, by the ringing of bells and firing of salutes, &c., &c., in every city, town and village throughout the country. It is understood that Mr Field will cause notice to be given in advance of the day when the first message will be transmitted through the cable.

The President's Consent to Publish the Queen's Message and his Reply.

PHILADELPHIA, Aug. 9.

The following is the reply of the President to the application of the Agent of the Associated Press for permission to obtain and use the Queen's message immediately on its receipt, and before it is sent to him at Bedford:

I am perfectly willing that the Queen's message and my reply should be published—indeed I see no objection to their being immediately on their transmission.

JAMES BUCHANAN.

The President has given directions to have the Queen's message sent to him at Bedford, instead of going to Washington.

Arrival of the Telegraph Fleet at St. Johns, N. F.

ST. JOHNS, N. F., Aug. 9.

At 11 A. M. the Niagara, Gorgon and Proteus arrived here this afternoon.—Immediately the Niagara will proceed to New York, the Gorgon to run a line of soundings to the Newfoundland and London Telegraph Company, from the head of Placentia Bay to Valentia, and the Porcupine will return direct to England.

A speck in the highest terms of the perfect way in which the Everett is paying out the cable and its work, and of the admirable manner in which Capt. Dayman led the Niagara and the Gorgon on the great 6 mile area of soundings during the laying of the cable. Too much praise cannot be bestowed on Capt. Otter of the Porcupine for his thorough soundings in Trinity Bay, and for the perfect manner in which he brought the Niagara at night after and range opposite them.

The cable was landed at the head of Bay of Bulls Arm.

On the approach of the telegraph fleet at St. Johns, flags were displayed from every part of the city, and the bells ringing, guns firing, and all kindings of the utmost joy appeared by the citizens. The shores were perfectly alive and people to welcome the fleet.

The evening the city is illuminated, and everybody wild with joy.

To-morrow at 11 o'clock, Mr. Field is to be presented with an address from the Legislature recorded, and at noon with another from the Chamber of Commerce. At seven o'clock the Governor gives a dinner to Mr. Field, Capt. Hudson, and the officers of the telegraph fleet; and here in the evening, a grand ball by the citizens will be the festivities of the day.

From New York.

NEW YORK, Aug. 9.

Lieut. Maury, the regular democratic candidate for Governor in North Carolina, is elected by an overwhelming majority.

The U S steamer Mississippi was at Hong Kong May 20th, just arrived from the Gulf of Pechee.

The Mayor of this city sent a message to the Council to-day, on the subject of the Atlantic Telegraph, suggesting that the hospitalities of the city be extended to the officers of the Niagara and of the national vessels of Great Britain connected with her in laying the cable—as well as to the eminent gentleman whose skill and energy contributed to the final accomplishment of the work. He also recommends that the Council cause the publication of Psalm 98 to be promulgated on the day they may appoint for the public celebration.

A. M. Spaulding introduced resolutions tendering the thanks of the Council to Mr. Field and his associates; offering to all persons engaged in the enterprise a municipal dinner; inviting the illumination of the City Hall; addressing Cyrus W. Field to sit for his portrait to be placed in the Governor's room at City Hall.

The resolutions were adopted, and a committee appointed to carry them out.

At Hastings, some twenty miles north of Quebec, Miss Dean, Mr. Lyle and Miss Lyle were thrown from a carriage on Saturday evening. The first and last named were instantly killed, and Mr. Lyle seriously if not fatally injured.

A grand regatta came off at Staten Island on Saturday. It was a most brilliant affair, and gave great satisfaction to all who witnessed it.

From Washington.

WASHINGTON, Aug. 9.

The bids for the U. S. Loan of $10,000,000 were opened to-day at the Treasury Department—Upwards of five million were awarded at par and five per cent. premium; three millions at par and five per cent; three millions at par and a half and five per cent, and the remaining million at between four and a quarter per cent and a half per cent.

The Secretary of the Navy has received a despatch from Capt. Hudson of the Niagara, saying the electricians regard the insulation as perfect, and are busily engaged preparing the battery for the reception of Queen Victoria's message to President Buchanan.

Various Items.

St. Louis, Aug. 9.—Leavenworth advices of 5th, per U. S. Express to Boonville, have been received.

The Utah Peace Commissioners Powell and McMullen, arrived there that day and proceeded to the east immediately. Mr Bridger the original settler of Fort Bridger accompanied the commissioners.

Over 2000 of Hazzell, Majors and Waddell's wagons were met on the plains.

Several Mormon families passed down the river that evening.

Leavenworth advices of 5th state that Scammon's election of Brown, Calhoun, Douglas and Shawnee counties increase the majority against the bill to 5376.

Detroit, Aug. 9.

A circular from Hon. Gerrit Smith announces his acceptance of the Syracuse, Massachusetts nomination for Governor.

TRAVERSE BAY, Aug. 9.

The U. S. frigate Niagara and U. S. M. steamer Gorgon and Porcupine all left for St. John's this morning at 5 30 o'clock. All were well and in good spirits.

PHILADELPHIA, Aug. 8.

The jury in the case of Cadwalader have returned a verdict of guilty against Kirkpatrick and his wife, fixing the penalty at $1000.

Gentle Excitement, Aug. 8.

The large and costly residence of Wm. S. Sawyer, together with all the barns and outbuildings situated in Brookfield, Mass., were totally destroyed by fire last night. Five cows were saved. The horses were filled with hay and grain, and the loss will be very heavy—Insured for $2000.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY DODWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 13 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal Quebec, Bangor, Bath, Augusta, Rockport and St. John. Also, connects with steamers for Eastport. Goods taken through with despatch, at the lowest rates.

For freight or passage apply to

EMERY & FOX, 11 B CROMWELL,
Brown's Wharf, Pier 14 N. River,
Portland, New York.

Portland, April 2, 1858.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, the cheapest and best of the Isthmus, via. Tehuantepec R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, extra city by daylight* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will save Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line's more rapid and short passage without any detention by the 15th rule.

Tickets must be viséed by one of the Company's Agents before they will be recognized by the Agent at Panama. Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

No. 16 Broad Street, Boston.

August 1, 1857 1y

For and to Boston.

Summer Arrangement.

The Steamers LEWISON, Capt. Geo. Knight and the COMET, Capt. F. A. Hall will run as follows,

Leave Atlantic Wharf Portland every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday at 5 o'clock P. M.

Fare in Cabin, $1.2
Fare on Deck, 1.0
Freight taken at usual

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded that in taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

L. BILLING, Agent.

Bangor, April 27, 1858

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICOLAY, President Office, 70 Wall st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Annotating Counterfeits, Erasures, Transfers or Alterations

HAVING purchased the "Secret for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GOTHAM, a celebrated chemist, whose in the British army; it is hardly necessary to say that the Paper is recommended by Mr Kett, Assayer of the U. S. Mint, Mr Lyndon of the New York Clearing House, and Messrs Southworth, extensive and skilful photographers 252 Broadway, N. Y. The latter says that no chemist can be made on a sheet of the paper used on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—60 cts per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts per lb.
Railroad Checks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts per lb.

For wrapping Silks and other fine articles it is excellent as improves instead of injuring them.

Pamphlets and Agreements, 60 cts per lb.

All Stage and County Records should always be printed on or written on this paper, as like chemicals used in the pulp it only prevents erasure or transfer, but makes it last ages as time.

For Southern climates it is excellent, and more superior to any other, as the moisture of the climate does not destroy it—the properties imparted in the pulp be age proof it is. In all the Spanish States, China, the West Indies, and the Central American States, no public records can be kept over 20 years, *without* on the ordinary paper while the Silk and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which destroy and destroy all other papers in use.

The Company have now in operation Mills in Morris County N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street New York.

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows:

For the largest list $300; 2d, $250; 3d $200, 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40, 12th, $35 13th, $30, 14th, $25; 15th, $20

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the holders of the successful premiums immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty six cents extra on each year's subscription to pre pay postage

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months

Club Rates—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $15, Twenty Copies for Twelve Months $25

For all Clubs of Twenty and over the yearly subscription is only $1 40

The new volume will be printed upon fine paper, with new type

The general character of the SCIENTIFIC AMERICAN is well known and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work,* and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding, it contains annually from 500 to 600 finely executed Engravings, and notices of American and European improvements together with an Official List of American Patent Claims published weekly in advance of all other papers

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearless ness in combatting and exposing false theories and practices in Scientific and Mechanical matters and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge

Specimen copies will be sent gratis to any part of the country. MUNN & CO.,

FIRE AND MARINE INSURANCE.

CHARTERED BY LEGISLATURE, JUNE, 1845

Authorized Capital, $500,000. *Cash Capital paid in and securely invested,* $150,000.

OBED F MILLER, Secretary. WARD COWING President.

BOARD OF DIRECTORS—Ward Cowing, William A Bradford, Samuel B Darling, Edward B Perry, George W Hall, F C Gardiner, Obed F Miller, Thomas A Boyle, William B Ryder, George Cleveland, Philip Ryder

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories Hotels, &c., also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money, and no further assessment at in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious

The Board of Directors have authorized the issues of Policies on country risks detached on very low terms

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office

signed, as his office

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are cold and wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have never had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LIVER

NVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public

These Gums remove all morbid matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood giving tone and health to the whole human machinery, removing the cause of the disease—of forcing a radical cure.

Bilious attacks are cured and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*

One dose taken after each meal will cure *Dyspepsia.*

One dose of two teaspoonfuls will always relieve *Sick Headache*

Only one dose required to relieve *Colic, or Pain*

All who use it are giving their unanimous testimony in its favor

Not sweet in the mouth sour the Invigorator, and qualities both together

Price One Dollar per Bottle.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain France and other foreign countries Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same—Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works and full accounts of Patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

[During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston did business at the Patent Office, as a practicing patent—There were few, if any, persons acting in that capacity who had as much business before the Patent Office and there were none who conducted it with more skill fidelity and care than Mr. Eddy. His knowledge of the laws is ripened and most skill ful Patent Solicitors in the United States and have no hesitation in assuring those that they cannot employ a person more competent and better worthy, and more capable of putting their applications in a form to secure for them early and favorable consideration at the Patent Office.

THOMAS EWBANK
Late Commissioner of Patents

[From the present Commissioner]

AUGUST 17, 1858—During the time I have held the office of Commissioner of Patents R. H. Eddy Esq. of Boston has been extensively engaged in the transaction of business with the Office as solicitor He is thoroughly acquainted with the law and the rules of practice of the Office, and is prepared to advise on the most equitable and successful practice in cases of doubtful patentability, and to conduct the same with dispatch and correctness in all the branches of business intercourse

Ayer's Cherry Pectoral.

Has long been used in almost every country of the world, and is known to be the best remedy for the cure of all Pulmonary complaints that afflict mankind. Where it has been introduced, it has won the confidence of the most eminent physicians, and the people have learned to look upon it as a sure protector against the fatal consequences of neglected colds. Indeed, as a safe antidote for the first symptoms of disease in the throat, lungs, or breast, it should be in every family, as no one can tell how soon it may be needed, or how much suffering or danger it may prevent. Consumption, which fastens its fangs upon its victim when the advice of a skilful physician might have saved him, can be cured by this remedy, if taken in season. Thousands have been restored to health by it, who had been given over by their friends as incurable. Even when the disease had gone so far as to defy the skill of physicians, and the patient was apparently on the verge of the grave, this remedy has, in many instances, given the sufferer a new lease of life, and restored him to health and vigor. In many of the distressing pulmonary affections which are incident to our climate, this Cherry Pectoral will be found the most prompt and reliable remedy that can be procured. Public confidence, based upon its own experience of the virtues of this medicine, and upon the certificates of those who have been cured by it, has given it a reputation which no other medicine of its class has ever attained. Wherever it is known, it is regarded as the best of all remedies for the diseases of the throat and lungs.
